

# Forging the Innovation Generation

## The PLTW Philosophy

### PLTW 's middle and high school programs:

- Meet national standards for mathematics, science, technology education, and English language arts
- Offer a complete career/technical concentration with an emphasis on both mathematics and science
- Link demanding mathematics and science courses with quality academic/technical courses

### The key components of PLTW 's learning include:

- Focusing students on one project over an extended period of time
- Working cooperatively and effectively as a class or in small groups
- Integrating mathematics, science, technology, and English language arts skills to solve complex problems
